## WORK EXPERIENCE

### E-Commerce Web Admin and Data Specialist **Sports Awards**

2024 - Present // Chicago, IL

- Managed day-to-day website functionality for over ten websites across three platforms (Shopify, AWS, OMG/Brightstores), including content updates, user management, and security.
- Utilized HTML, CSS, and jQuery for website updates and enhancements.
- Integrated third-party apps in Shopify for advanced user registration, bulk updates, and volume pricing.
- Leveraged M1 ERP for inventory tracking and managing new product connections to the websites.
- Implemented SEO best practices, monitored site analytics using Google Analytics, and handled domain/DNS management in GoDaddy.

### Web Developer **Abellan Corporation**

2024 // Chicago, IL

- Designed, developed, and maintained websites for clients.
- Implemented user-friendly web applications, prioritizing intuitive navigation, responsive design, and seamless functionality to provide an optimal user experience.
- Performed ongoing website maintenance, including updating content, implementing security measures, and optimizing performance to ensure the smooth operation and longevity of the websites.

### Web Developer Intern **Shure**

2023 - 2024 // Niles, IL

- Successfully designed and developed two web applications within an eight-month timeframe using Next.js.
- Collaborated with a cross-functional team using JIRA and Agile methodologies, ensuring efficient project management and delivery.
- Demonstrated expertise in testing, debugging, and maintaining Shure's web applications to ensure optimal performance.
- Contributed to the enhancement of the user experience by creating wireframes and conducting user interviews for the incorporation of new UI elements.
- Assisted in the transition to the new CMS, Sitecore, by wireframing and then building pages for Shure's Audio Institute.

### Hospitality Team and Instructor **First Ascent Climbing & Fitness**

2021 - Present // Chicago, IL

- Taught the course "Learning the Ropes," where students learn how to top rope belay, perform safety checks, tie knots, and follow climbing etiquette.
- Supported customers by conducting orientations, providing top rope and lead certifications, addressing questions, and resolving complaints.

### Attribute Data Analyst **SPINS**

2017 - 2021 // Chicago, IL

- Responsible for integration of private label data from retailers into a MDM platform.
- Handled coding packaging information, research, and quality control.
- Managed creation of auto coding rules with engineering.
- Database management in dBeaver and MySQL.
