WORK EXPERIENCE

Web Developer **Abellan Corporation**

2024 - Present // Chicago, IL

- Designed, developed, and maintained WordPress websites for clients.
- Implemented user-friendly web applications, prioritizing intuitive navigation, responsive design, and seamless functionality to provide an optimal user experience.
- Conducted regular meetings and communication with clients to provide updates, address feedback, and make necessary adjustments to ensure their utmost satisfaction.
- Performed ongoing website maintenance, including updating content, implementing security measures, and optimizing performance to ensure the smooth operation and longevity of the websites.

Web Developer Intern **Shure**

2023 - 2024 // Niles, IL

- Successfully designed and developed two web applications within an eight-month timeframe using Next.js.
- Collaborated with a cross-functional team using JIRA and Agile methodologies, ensuring efficient project management and delivery.
- Demonstrated expertise in testing, debugging, and maintaining Shure's web applications to ensure optimal performance.
- Contributed to the enhancement of the user experience by creating wireframes and conducting user interviews for the incorporation of new UI elements.
- Assisted in the transition to the new CMS, Sitecore, by wireframing and then building pages for Shure's Audio Institute.

Hospitality Team and Instructor **First Ascent Climbing & Fitness**

2021 - Present // Chicago, IL

- Taught the course "Learning the Ropes," where students learn how to top rope belay, perform safety checks, tie knots, and follow climbing etiquette.
- Supported customers by conducting orientations, providing top rope and lead certifications, addressing questions, and resolving complaints.

Attribute Data Analyst **SPINS**

2017 - 2021 // Chicago, IL

- Responsible for integration of private label data from retailers into a MDM platform.
- Handled coding packaging information, research, and quality control.
- Managed creation of auto coding rules with engineering.
- Database management using SQL.

Natural Products Researcher **SPINS**

2016 - 2017 // Chicago, IL

- Contributor to SPINS product library, lead on private label data, answered JIRA tickets, researched, and audited product information.
- Worked closely with the engineering team to ensure data loads for retailers files and coded UPCs that utilized the Reltio platform.
